Dear Parents,

I am the author of a historical fiction series, with an element of fantasy, titled Michigan History Nightmares. My books are written as supplements to the Michigan history curriculum. As a former elementary school teacher, my goal is to excite students about reading and writing with personal stories and tips that I have developed during my career as a writer.

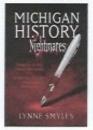

Today I had the opportunity to speak to the children in the upper grades at your child's school. If you would like your child to have a book signed by me or to order books for gifts, please complete and return this form with payment to your child's teacher. I will sign and personalize each book. Thank you.

Sincerely

Lynne Smyle-

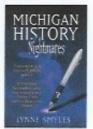

Take a wild journey through history in this action-packed children's series,

Michigan History Nightmares

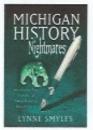

Michigan History Nightmares (vol. 1)
Trapped in the Lower Peninsula/A Narrow Escape in the Upper Peninsula

Following a nightmare in which Katie finds herself trapped inside of a glacier, she wakes up for her first day of third grade with a funny feeling that something quite unusual is about to happen. Will her frightening dream soon become a reality?

Michigan History Nightmares (vol. 2)
Entombed in a Hopewell Burial Mound/ A Shocking Encounter with the Iroquois and Three Fires American Tribes

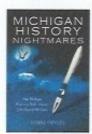

Unlike most kids, Katie's nightmares don't end when she wakes up. Lately her bad dreams have sent her places other Michigan kids only learn about in books. For Katie and her friends, including the mysterious new kid, Zach, Michigan History is about to get real once again.

Michigan History Nightmares (vol. 3) Michigan Fur Trade . . . A Hare-Raising Adventure

What happens when you research the Michigan fur trade on Halloween?

Katie, Nick, Gary, Helena, and Zack are about to find out. This time the young historians find themselves transported back in time to the seventeenth century where they are captured by pirates, attacked by a bear, and shot through the rapids with voyageurs while learning first-hand about the fur trade in Michigan.

Michigan History Nightmares (vol. 4) How Michigan Became a State – Lessons from beyond the Grave

Katie, Nick, Gary, Zack, and Helena were excited to be the first test group of children to determine if the new Tri-Con Dynamics quantum computers were kid friendly. Eager to begin, they entered their questions on how Michigan became a state. What happened next was definitely not what anyone had expected! Catapulted back in time, the group finds themselves trapped in a parallel universe where ghosts from the past become their Michigan history teachers. Even more disturbing is the fact that the Michigan pen isn't functioning correctly, leaving the children to wonder who or what is in control of their future?
